RING! RING!

Oh! Ring, That Bell!

Bright and early Monday morning we commence another series of sales. A large lot of new goods have been received, and still larger lots are on the way. Messrs. John V. Farwell & Co., of Chicago, telegraphed us a few days ago about a large lot of special bargains, and named a price that will prove a very great loss to the manufacturers.

WE TELEGRAPHED FOR IMMEDIATE SHIPMENT.

And these goods will all be here this week. Every day this week special announcement and full description will be made in the daily papers, and the crowds will be here. We wish to impress on your minds that

No Trash is Offered in These Sales.

All first-class and desirable merchandise and the very cream of the business. This week the bargains will be all new, all first-class, and extra desirable, and every announcement will prove of great benefit to intending purchasers.

Monday morning we commence to

ROLL THE BALL AND RING THE BELL!

Roll and ring! ring and roll all through the week. We know when we have a good thing, and we know this week we will be able to offer one of the choicest and most desirable lot of goods ever

Placed on Sale By Any House on this Coast.

Read the daily papers. Read them early in the morning. We make special inducements to early risers. When you get up in the morning, think of it. Ring and roll! When you take your morning meal, think of it. Ring and roll! When you retire, think of it. Ring and roll! Think of it all through the week.

Ring in the Bargains! Ring out the Goods.

We tell you honestly, never have we been able to offer the inducements we now have at our command, and they will be placed at your disposal as fast as received.

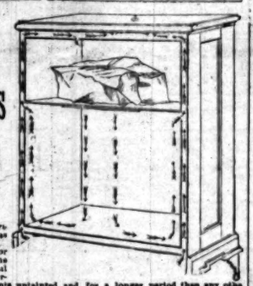
Iceberg Chief Refrigerators

—ARE THE—

Latest Achievement in Their Line.



Now, we have no doubt that hundreds of the old style Refrigerators in use give satisfaction to those who do not know of anything better, having bought what was possibly the best at the time, *but what is now out of date.*

But you, who have a Refrigerator yet to buy, examine the novel and superior principles of the *"Iceberg Chief,"* and whilst you are at it as well get the *latest, best and cheapest* in market. By the perfect ventilation and careful construction of all its parts, the "Iceberg Chief" retains a more even and lower temperature with a consumption of less ice and at the same time preserves its contents unstained and for a longer period than any other article made.

FOURTH OF JULY, 1985.

GREAT DISPLAY OF FREWORKS

By special arrangement we have received the following programme of events on the Fourth of July, ONE HUNDRED YEARS from to-day:

GRAND ROCKET RACE.

There will be a race by the boys of Los Angeles on the Patent Utopian Sky-Rocket. This firework has an exterior seat on which the rider mounts; and, at the signal from the judge, touches off the fuse. Each boy steers by means of the novel Air Rudder. The contestants must take provisions, as they will eat dinner on the new comet called "Comet if you can." The prize offered for the quickest time is the improved combination known as the "EUREKALETMEHAVEITATANYCOST." This five-inch package contains a suit of clothing, hat, folding cane, trunk, etc., all worked by carbon.

TRANS-ATLANTIC EXCURSION.

Round trip from San Francisco, Los Angeles and San Diego to England, France and Italy, the entire cost will be only SEVENTY-FIVE CENTS, owing to the great competition with the Inter-Oceanic Balloon route, the Rocket Rapid Transit Road and the Subterranean Tunnel line, the fare is reduced.

LINE OF TRAVEL.

The Electric Car will leave the Union Depot, Los Angeles, at 10 a. m., reaching Boston at 10:15; thence the train will cross the Atlantic Suspension Bridge, arriving in Liverpool in time for dinner. The cars stop in Italy, returning the same night. The moonlight home trip over the ocean will be superb.

P. T. BARNUM, Junior, will be in a large midway across the Atlantic and will exhibit his celebrated tame whales, eating from his hand off the boat. On the cars, tents and at each station will be seen large assortments of clothing, etc., direct from the BOSTON SQUARE DEALERS' Cosmopolitan warehouses. After much solicitation PITCHER & GRAY have consented to establish a Branch Store on the Moon, near Star system.

P. S.—Passengers remember that the train goes no further than San Diego and Los Angeles on return, as it will hardly pay to continue to Boston all places this San Francisco, etc.

AMERICAN FRUIT EVAPORATOR!

The most practical and reliable Fruit Evaporator made. It gives unobstructed hot air currents ABOVE and BELOW all fruit, thus insuring evenness of drying and no spoiled fruit. Beware of infringements. THE AMERICAN is pre-eminently the fruit-raisers' machine. Its sizes grade from domestic to manufacturing wants. It makes the highest quality of work with ordinary care in handling. There is no need of making anything else. Though we approve a slight use of sulphur, the AMERICAN is specially adapted for highest grade in unbleached work. It places fresh cut fruit first in highest and dryest heat; cures cut surfaces at once and keeps them dry, thereby setting and making permanent the color, and also thereby, as in broiling steaks, securing the highest quality in product. We place our experience in evaporating at the disposal of our customers. In some cases this gratuitous service is of more value than prices paid us for evaporators. Sold by

CATARRH!

Throat Diseases, Bronchitis, Asthma and Consumption, together with the Eye, Ear and Heart, successfully treated by

M. HILTON WILLIAMS, M. D.

M. T. U. T. C.

Graduate of Victoria College, Toronto, Ontario; member of the College of Physicians and Surgeons of Ontario; for three years Assistant Surgeon of the Chicago and Cincinnati Throat and Lung Institutes; for fifteen years, and still, proprietor of the Throat and Lung Institute; also Licentiate Physician in and for the State of Michigan, and for several years Proprietor of the Ontario Pulmonary Institute and Health Resort of Toronto, Ontario. Over 40,000 cases treated by us during the past nineteen years.

OZENA.

Ozena is he professional or technical name given to an advanced form of catarrh in which ulceration has eaten through the membrane lining of the nose to the cartilages of the bone. Any case of catarrh may end in ozena, but it most frequently occurs in those who are naturally scrofulous. The discharge takes place through the nostrils or through the throat, and is generally of a yellowish or greenish color, frequently tinged with blood, and almost always attended by an offensive smell. In the language of Dr. Wood, of Philadelphia, "the disease is one of the most obdurate and disagreeable which the physician has to encounter, and none but the health of the patient becomes so revolting as to isolate him from society, and render him an object of loathing even to himself."

In some instances pieces of bone become separated and shed off, leaving deep, unhealthy ulcers, which secrete a blood matter, and are extremely difficult to heal.

After ozena has continued some time the sense of smell become impaired and often lost.

Deafness is one of its most common consequences and results from its extension through the eustachian tube to the internal ear.

Pains in the head and over the frontal sinuses, impairing memory, and even insanity frequently springs from its extension to the brain.

The greatest danger, however, because the most common, is that it will extend downward and affect the lungs. In most cases of pulmonary disease catarrh is present in some form, and in many instances it causes a large share of the patient's discomfort.

Besides these grave consequences, all of which are liable in spring from scrofulous catarrh or ozena, are those others which, if less dangerous, are sufficiently unpleasant. It occasions great unhappiness to thousands of both sexes by isolating them and preventing their settlement in life. An offensive running from the nose, with a tendency to shorten the breath, is a calamity as can befall young people. Every diseases of this kind can be cured by our new and wonderful treatment.

CHARLES KRUG, the wine manufacturer of Napa, has failed for $236,000. Assets $181,000. He indorsed notes for his friends, and they "soured" on him.

REPRESENTATIVE MORRISON, of Illinois, whispers into the ear of our Associated Press reporter that he (Morrison) proposes to introduce another "horizontal" tariff bill at the next session of Congress. Are the Democrats going to keep on meddling with that fool thing? The party had better "horizontally" squelch Morrison before he begins.

A GAME of base ball was played at North Yamhill, Oregon, yesterday, between nine sparkling young ladies and nine old gentlemen. Whether the girls called themselves the "Red Stockings" or the "Striped Stockings," or the "Ballringen Hose," is not stated. But the stockings won. Another triumph for woman's rights.

THE Horticultural Commissioners publish in to-day's TIMES an address to the people of Los Angeles county, urging them to co-operate in the work of suppressing the white scale. The commissioners want every man who knows of the existence of the scale in any particular locality to report it at once, when measures will be taken to clear out the pest. Let the battle of the bugs be waged! Spray on, Macduff!

THE Southern Pacific Railroad Company, feeling a little hard up about this time, and being under the necessity of "raising the wind," has brought suit to oust a number of settlers in Los Angeles, Kern, San Bernardino and San Diego counties. The company claims their farms as within the twenty-mile limit granted July 27, 1866. Some of the property in controversy has been highly improved by the holders, and the places aggregate in value about $35,000. The company needs these little farms, and the settlers might as well move on.

FULLY five hundred widows and orphans are brought to the verge of starvation by the dreadful holocaust in the Pendlebury colliery, near Manchester, England. If some of the English aristocracy who are rolling in wealth and "cawn't find a way to spwend it, you now," would take hold of this matter and furnish practical relief, they would reach a soft spot in the hearts of the lower classes, and do much towards reconciling them to their condition. The chances are, however, that relief will be sent from America before it is contributed in England. The aristocracy are used to such occurrences and don't much mind them.

THE advance breath of a strong breeze threatens to swell into a septentrional gale, beat down upon us from far-off Portland, Maine, where the national encampment of the Grand Army of the Republic is about to assemble for commissariat and other purposes. The cause of the impending storm is alleged to be the shipment, or expected shipment of certain packages of isquebaugh, or *spiritus frumenti*, and kindred drugs and medicines for the use of the veteran *inwalides*. "The Law and Order League" favor searching all baggage arriving for delegates, and confiscating that which may be found to contain "tanglefoot." This bold and usurping scheme threatens to produce a riotion. The boys in blue have resolved, as one man, to rally on the commissary, heels and head together, faces to the foe, and fight it out on that line if it takes some time. We are surprised that the old boys have so far forgotten their cunning and their strategy as to expose their supply train and plan of operations in this manner. Why did they not resort to the gun-barrel scheme as a means of transporting their physicians' prescriptions into camp? Then the "Law and Order League" of Maine would be compelled to look down yawning muzzles in order to discover contraband of war. We'll bet a dollar and a half that Colonel Godfrey, who is a Democrat, exiled from Maine on account of the scarcity of molasses and things in that peculiar State, would be equal to the occasion if he were on the spot and in charge of the commissary department of the Grand Army of the Republic.

Serious Charges.

Mrs. Rapphold, who lives at No. 49 Ducommun street, called at the TIMES office yesterday and stated that a neighbor named Sherer, a carpenter by trade, came upon her premises Sunday and caused a disturbance. Mrs. Rapphold had been carrying on a conversation with a roomer of hers who sat at a distance of about twenty feet, when Sherer put in his appearance and ordered her to stop talking as she was disturbing his wife who was sick. Angry words were exchanged, and finally Mrs. Rapphold picked up a handful of sand and threw it into Sherer's face. She claims that he then knocked her down and stamped her face. She also charges that Officer Jackson was present and neither interfered to stop the affray or to arrest Sherer.

Officer Jackson says he was near by but did not see the fracas. He had previously tried to pacify the disputants. After the affray he arrested both parties. The squabble will be legally investigated next Friday.

The Fruit Stands.

Among the fruits displayed now on the street stands are the following: New figs, three pounds for a quarter; strawberries, raspberries, blackberries, plums, new prunes, peaches in variety, same price; watermelons, 20 to 25 cents each; pears in variety, 3, 4 and 5 cents a pound; apples, of several kinds, 2 and 3 cents a pound; oranges, 10 cents a dozen and up; lemons, same; apricots, 3½ and 5 cents a pound, etc. Cherries are practically ungarnished.

An Infant Drowned at Santa Ana.

Yesterday the one-year-old grandchild of A. M. Hathaway, who resides between Santa Ana and Tustin, was drowned in a singular manner. The infant was sitting in a chair in the dining room, his mother being in another part of the house and its grandmother in the garden picking apricots. An ordinary five-gallon coal oil can filled with water was on the floor near the child, and in some way it fell off the chair and into the water and was drowned.

The Gwin.

Announcement is made in to-day's TIMES of the dramatic entertainments to be given by this popular amateur company on the afternoon and evening of July 4th. The play is said to be rich, rare and racy, and the public may be sure it will be well presented.

THE CHEYENNES.

They Threaten to Go On the Warpath.

TROOPS SENT TO HOLD THEM IN CHECK

And a Commission is Ordered to Find Out the Cause of Dissatisfaction.

Associated Press Dispatches to The Times.

WASHINGTON, June 22.—The War Department has received a report from Fort Reno, Indian Territory, dated the 19th instant, to the effect that great excitement prevails at that place over a threatened outbreak by the Cheyennes. The Indians known as Southern Cheyennes are making preparations to go on the war path. Troops have been dispatched to quell the disturbance. The War Department officials are not informed as to the cause of the threatened outbreak. If these Indians go on the war path there will be great difficulty in quieting them. The Cheyennes are reported to be as troublesome to deal with as the Apaches. However, the country in which the former live would be more advantageous to soldiers pursuing them than is the rough, rocky country in which the latter are being followed.

TROOPS ORDERED OUT.

WASHINGTON, June 23.—News was received at the War Department late this afternoon to the effect that the difficulty with the Cheyenne Indians is becoming very serious. General Auger has ordered four companies of the Fifth cavalry to go to the scene of disturbance in addition to companies previously sent to Reno. This makes ten companies at Reno, and three additional companies are held in readiness to go on a moment's notice. Auger recommends the appointment of a commission to ascertain the cause of the discontent. The Southern Cheyennes are located in the western portion of the Territory. The country is level and devoid of trees, except along the streams. Owing to its great extent it is very easy for the Indians to keep out of the way of troops. It is believed here that the Indians are well supplied with arms and ammunition. The last trouble with the Cheyennes occurred about a year ago and continued for more than a year. It was caused by the Indians of that tribe massacring a portion of a family moving overland from Georgia. The massacre occurred in Kansas. The father, mother and daughter were killed and four remaining children were taken captives. The daughter who was killed, before she was captured, took the life of an Indian with an ax as he attempted to get into the wagon in which the children were gathered. Prior to this massacre the Cheyennes became unfriendly toward the whites. A number of men disguised as Indians had burned a bridge on the Kansas Pacific railroad for the purpose of stopping a train, that they might plunder it. After the destruction of the bridge soldiers were sent to capture the men implicated. An officer chanced one day to see an Indian standing alone at a distance. He drew nearer, fired and killed him. The Indian was a son of Lone Wolf, a great Indian chief. When he was buried four hundred ponies were killed above his grave. Though Lone Wolf himself did not participate in the outbreak which followed his son's death, it was thought that the shooting of the young Indian greatly influenced the tribe to go on the warpath. The massacre of the Georgia family and one year's fighting followed.

BROKEN LOOSE.

DENVER, June 22.—The Tribune Republican's Durango special says a messenger from Dolores Valley arrived this afternoon. The Indians had killed a neighbor named Gunthner, seriously wounded his wife and burned the dwelling, barns, haystacks, etc. The messenger confirms the report that cowboys had killed six of a family of Indians. One young buck who belonged to the same family was wounded, but got away and came to the agency. Ignacio told his story, and 250 warriors came to the agency and demanded revenge. Agent Shall steamer pacified them by agreeing to go with twenty-five of their number to Fort Lewis, there get an escort of soldiers and proceed to the scene of trouble to investigate the whole matter. Accordingly the agent and Indians passed through here this evening en route to Ft. Lewis. Another messenger, who arrived this evening, says a party of Indians met John Dougherty, a brother of Captain Dougherty of the 23d Cavalry, now stationed at Ft. Lewis, while on the way to his home near Mitchell's Springs. They killed him and mutilated his body in a horrible manner. Mrs. Dougherty is now in captivity. Capt. Perrine, who was in camp in Montezuma Valley with two companies, sent Capt. Dougherty with his company to the scene of murder. It is stated that the commander of Ft. Lewis, hearing of the action of Capt. Perrine, immediately sent a company of cavalry to interrupt Capt. Dougherty, fearing he might lose discretion and seek revenge for the death of his brother and the captivity of his wife, who was a daughter of Mitchell, of Mitchell's Springs, with whom Dougherty's children were staying during the absence of the parents. There are many conflicting stories as who commenced the trouble. The cowboys claim it was the Indians, on the other hand, the Indians and their agent accuse the cowboys of carrying out their threat to kill Indians found off their reservation. Troops are arriving, and the Indians will probably scatter and return to their reservation.

Hendricks is Resigned.

SAN FRANCISCO, June 22.—Hon. W. C. Hendricks, of Oroville, nephew of the Vice-President, has sent the following letter to Hon. T. J. Shackleford, of this city:

Dear Shackleford: I am disappointed in not getting the Surveyorship of the Mint, but that disappointment is not without its silver lining. There is great unanimity of feeling in the State in my behalf, and some kindly notices and expressions in my interest are very soothing to my disappointment. I wanted, needed and expected it, but failing does not change my feeling for my friends in the State or the opinion I have always entertained of its head; that is, that President Cleveland wanted to do for the best. And I would not insinuate that he has not done so. I have no right or inclination to kick, and will as strongly as ever hope and work for the best interests of the country and party. As ever,

Yours, W. C. HENDRICKS.

A Cremation Prevented.

WHEELING, W. V., June 22.—About 10 o'clock yesterday morning a great excitement was caused in the village of West Wheeling, on the Ohio side of the river, by the attempt of a Polish potter, one Keffler, to cremate the body of his daughter in one of the kilns of his works. The man said he was too poor to give his child burial. Early in the morning he fired the kiln and strapped the body to a board so that it might be pushed into the furnace. His intentions leaked out, and soon a crowd of 150 or 200 indignant people gathered. The City Marshal of Bellaire was sent for and the body was removed from the custody of the parents and given burial by Senator Wagner and others. Last night it was reported that Keffler had attempted to kill his wife with an ax, saying that he had been commanded by the Almighty to take her life.

Krug Fails.

NAPA, Cal., June 22.—Charles Krug, of St. Helena, one of the most prominent vineyardists of this State, filed to-day a petition in insolvency, with liabilities of $235,000 and assets $181,000. The creditors are all local. The principal are the Bank of Napa, $50,000 and the Bank of St. Helena $31,000. A portion of the indebtedness is secured by mortgage. The immediate cause of the failure was the indorsement of notes for friends.

Pinealing the Afghans.

LONDON, June 22.—A dispatch from Teheran states that letters received there from Herat show that the Russians have established a good understanding with the Tamekilda and, Hezareh tribes, who dwell in the northern and mountainous districts of Afghanistan. These letters further say that the tribes mentioned are willing to submit to Russian rule.

The Suez Canal Open.

SUEZ, June 22.—Traffic on the Suez Canal is now fully resumed. The interruption of mails by the sinking of the great dredger was not so serious as thought. Seven mail boats succeeded in passing around the obstructions.

More Chinese.

SAN FRANCISCO, June 22.—The steamer San Pablo, which arrived from China today, brought 791 Chinese destined as follows: San Francisco 576, Honolulu 55, Victoria 115, Panama 45.

THE GRAND ARMY IN MAINE.

Trouble Brewing About the Grand Army's Liquor

PORTLAND, Me., June 23.—The weather is perfect and delegations of the Grand Army are beginning to arrive. The "Law and Order League" has received a circular stating that all liquor consigned to members of the Grand Army shall be promptly seized. The proposition made by the same committee that all consignments to members of the G. A. R. be seized and taken to police headquarters, and if, after inspection by Commander-in-Chief Kountz, they be found to contain any liquor, they be not forwarded to consignee, met with instant opposition, and the fact of such a proposition having been made has caused something of a rebellious spirit to arise. Visitors openly declare their intention to resent any such arbitrary action should it be attempted. It is not denied that there are quantities of liquor now en route consigned to members of the G. A. R. who are either now here or who are to arrive, and prominent officers of the organization declare that they intend to take out and keep possession of their consignments. The constant agitation of this subject recently by temperance leaders has caused it to take a place of paramount interest on all sides. Gen. Logan is expected to arrive to-night. He will be given a grand reception, as also Gens. Slocum and Rosecrans, who are expected to-night. The executive committee is likely to be put to a severe test by the demands made upon it. The Iowa delegates this morning telegraphed for 600 additional quarters, and numerous other requests of a similar nature have been made.

THE GRAND ARMY REPEAL.

A great deal is heard on all sides in regard to the liquor question. To-night the Associated Press received the following telegram, which seems to have been inspired by a circular issued by the temperance leaders:

NEWPORT, Vt., June 22.—To Associated Press: Two thousand comrades of the Grand Army of the Republic have read dispatches regarding the appointment of special police to care for the lives and property of Portland. We call your attention to the fact that in times past we were the police of the nation, and twenty years has not diminished our respect for law and order. We come unarmed and on a peaceful mission as your guests, and respectfully ask permission to enter your city unmolested by special police or special investigating committees. (Signed), Departments of Ohio, Tennessee, Georgia, Illinois, Wisconsin, Iowa, Colorado, Minnesota, Oregon, Dakota, Missouri, Nebraska, and Michigan. The peculiar wording of the circular sent out by the advocates of temperance seems to have the effect of creating no small degree of resentment on the part of visitors from other States, and many of them claim that to issue such circulars to a body of men so old in years, in the service and in distinguished honor as that of the Grand Army of the Republic is scarcely less than an insult.

WASHINGTON.

Morrison's "Horizontal" Bill—The Customs Board Bank.

WASHINGTON, June 23.—In an interview to-day with an Associated Press reporter Representative Morrison, of Illinois, said that he purposed to introduce another tariff bill in the first session of the next Congress.

"As what time during the session?" was asked.

"As soon as I can get ready after Congress convenes," he replied.

"Will the bill provide for a horizontal reduction, as did the measure you introduced during the last Congress?"

"They say they do not want a horizontal reduction. The truth is, they do not want a reduction of any kind. I will provide in the proposed bill for about such a reduction in amount as I provided for in my last bill. It is probable that a number of bills for reducing the tariff will be introduced, but personally I know of no one but myself who contemplates presenting such a measure for consideration."

A DISQUIETING RUMOR.

Official confirmation of the report from Vienna that the Austrian government will not receive Mr. Kisly as a representative of the United States government cannot now be obtained here. The Secretary of State and Assistant Secretary of State refuse to talk upon the subject. There are indications, however, that point to the substantial correctness of the report.

THE BLOOD-STAINED COLORS.

The Grim Chieftain says that the bloodstained flag of the Fifty-third Illinois Infantry, to which general attention was recently called, has been sent to the Governor of Illinois. Upon examination, however, in the case the War Department came to the conclusion that the regiment acted very bravely and were entitled to their colors.

SIMMS WANTS TO BUY OUT.

A dispatch received at the Postoffice Department from British Columbia says that Hibbs, the absconding postmaster of Lewiston, Idaho, who stole $20,000, is willing to compromise by giving the government $8,000 of the stolen money for his freedom. The Postmaster-General directed that the offer be refused, as the government would rather have Hibbs than the money. Extradition proceedings will begin in a few days.

WANTS MORE LAND.

The Southern Pacific Begins Action to Oust Settlers.

SAN FRANCISCO, June 23.—The Southern Pacific Railroad Company has begun action in the United States Circuit Court against Thomas Davis and twenty other defendants to have them oust from their tillies of land, held by them in Los Angeles, Kern, San Bernardino and San Diego counties, under United States letters patent. The lands in question were granted to defendants for settlement, and some of them have made extensive improvements. The Southern Pacific road claims that these lands are within the twenty mile limit of lands granted to it under the act of Congress of July 27, 1866. The defendants have until July 6 to enter their appearance. The lands have an aggregate value of $95,000.

Prof. Riley and the Grasshoppers.

WASHINGTON, June 22.—Specimens of grasshoppers from several parts of California have been sent to Prof. Riley. He finds them to be the *Melanoplus devastator* and *Colesporus differentialis*. The last-named is common to all parts of the country and seldom proves very destructive, while the other is peculiar to the Pacific Slope and is probably doing the present work of destruction. Prof. Riley recommends the use of coal oil in pans, which was found so useful in driving the Eastern species, and further refers California farmers to the remedies described in the reports of the entomologist to the Commissioner of Agriculture as the best yet discovered.

Big Fire in Merced.

MERCED, Cal., June 22.—A fire yesterday morning destroyed all the buildings in the south half of the block bounded by Front and M streets. The total loss is estimated at $60,000. An insurance of $30,000 is reported. Several occupants of Evans's Hotel were lost in the flames.

LATER.—The report that some of the occupants of the hotel were burned in the fire yesterday is found to be incorrect. Some firemen and others were badly singed, but none were seriously injured. Preparations for rebuilding have already commenced.

Sent Up for Seven Years.

MERCED, June 22.—To-day Judge Maria, of the Superior Court, sentenced Allie Huts, alias Long Tom, to seven years in Folsom State Prison—two years on the first and five on the second charge, of assault to murder. Huts, in company with Bob McFarlane, in June, 1884, shot and killed Antone Enos and wounded two other Portuguese in a dance-house here.

Professor Norton Dead.

WILMOTS, Cal., June 22.—Prof. Henry B. Norton, who has been so widely known throughout the State from his connection with the State Normal School at San José and from his other literary work during the past ten years, died at his residence in the Santa Cruz mountain, of congestion of the brain, this morning at 5 o'clock.

Emperor William is Cordial.

BERLIN, June 23.—The reception given to Minister Pendleton yesterday by Emperor William was of a very cordial character. They conversed for a short time in very friendly terms. The Emperor expressed the best feelings towards both America and American people.

Salisbury Gets Assurances and Goes Ahead.

THE CABINET DEFINITELY ANNOUNCED

Gladstone's Concession a Slight Matter—He Will Endeavor to Prevent Factious Opposition.

Associated Press Dispatches to The Times.

LONDON, June 23.—The difficulty concerning the formation of the new Ministry has been settled, and the Marquis of Salisbury assumes the office of Premier at once.

RAPIDLY SETTLED.

As a result of the Queen's efforts the Marquis of Salisbury has resolved to accept Gladstone's promise to use his influence with the Liberals to prevent factious opposition. It is expected that Salisbury will announce the formation of his Cabinet to-morrow, with Mr. Bourke probably as Chief Secretary for Ireland. Write will then be issued for the re-election of the Cabinet members.

STARTED FOR LONDON.

DUBLIN, June 23.—Earl Spencer has started for London.

GLADSTONE'S PROMISE.

LONDON, June 23.—Gladstone has made a promise to Salisbury to give the new government as much time as possible during the remainder of the session. Conciliatory speeches between the party leaders will probably be presented in Parliament to-day. It is stated that the leaders have arranged to make an effort to carry the Welsh Intermediate Educational Bill, the Irish National Educational Bill, and the Minister for Scotland Bill. Lord Salisbury declined to include the Scotch Crofters Bill. The Seats Bill will be finished Tuesday night. Parliament will meet Wednesday to obtain the royal assent to the dissolution of Mr. Gladstone's Ministry. The following is an authentic list of the new cabinet:

Prime Minister and Secretary for Foreign Affairs, the Marquis of Salisbury.

First Lord of the Treasury, Sir Stafford Northcote.

Chancellor of the Exchequer, Sir Michael Hicks Beach.

Lord high Chancellor, Sir Hardinge Gifford.

Lord President of the Council, Viscount Cranbrook.

Lord of the Privy Seal, Earl Harrowby.

Secretary of the Home Department, Sir Richard Asherton Cross.

Secretary of the Colonial Department, Colonel Frederick Stanley.

Secretary of War, Right Honorable Wm. Henry Smith.

Secretary of State for India, Lord Randolph Churchill.

First Lord of the Admiralty, Lord George Hamilton.

The President of the Local Government Board is Arthur James Balfour.

President Board of Trade, Duke of Richmond and Gordon.

Vice President of Council, Hon. Edward Stanhope.

Lord Lieutenant of Ireland, Earl Carnarvon.

Lord Chancellor of Ireland, Right Hon. Edward Gibson.

The Mark Lane Review.

LONDON, June 22.—The Mark Lane Express, in its review of the British grain trade during the past week, says: Cold winds and chilly nights have been prevalent. Backward crops have shown but little improvement. Wheats are coming fast into ear; the plant, as a rule, is clean and strong. Winter oats are in vain. The winter bean crop is a luxuriant one. Sales of English wheat during the week were 58,174 quarters, at 29s 3d, against 47,529 quarters at 27s during the corresponding week last year. There is a better tone for foreign wheat off the coast. The market is a little more animated, although rates are still unimproved. Thirty-two cargoes arrived—nine cargoes were sold, eight were withdrawn, and seventeen remained, including three of Oregon and two of California. At to-day's market the retail inquiry for wheat made values firmer, and millers were smaller. Corn was quiet. Barley dull. Beans and peas were unchanged.

A DISQUIETING RUMOR.

Official confirmation of the report from Vienna that the Austrian government will not receive Mr. Kisly as a representative of the United States government cannot now be obtained here. The Secretary of State and Assistant Secretary of State refuse to talk upon the subject. There are indications, however, that point to the substantial correctness of the report.

THE BLOOD-STAINED COLORS.

The Grim Chieftain says that the bloodstained flag of the Fifty-third Illinois Infantry, to which general attention was recently called, has been sent to the Governor of Illinois. Upon examination, however, in the case the War Department came to the conclusion that the regiment acted very bravely and were entitled to their colors.

SIMMS WANTS TO BUY OUT.

A dispatch received at the Postoffice Department from British Columbia says that Hibbs, the absconding postmaster of Lewiston, Idaho, who stole $20,000, is willing to compromise by giving the government $8,000 of the stolen money for his freedom. The Postmaster-General directed that the offer be refused, as the government would rather have Hibbs than the money. Extradition proceedings will begin in a few days.

WANTS MORE LAND.

The Southern Pacific Begins Action to Oust Settlers.

SAN FRANCISCO, June 23.—The Southern Pacific Railroad Company has begun action in the United States Circuit Court against Thomas Davis and twenty other defendants to have them oust from their tillies of land, held by them in Los Angeles, Kern, San Bernardino and San Diego counties, under United States letters patent. The lands in question were granted to defendants for settlement, and some of them have made extensive improvements. The Southern Pacific road claims that these lands are within the twenty mile limit of lands granted to it under the act of Congress of July 27, 1866. The defendants have until July 6 to enter their appearance. The lands have an aggregate value of $95,000.

"Senseless Agitation."

Under the above heading the San Francisco Chronicle of last Sunday discusses O'Donnell and O'Donnellism in a logical and dispassionate article, which we copy and indorse in its essential arguments, and particularly in what it says about the damage done to California and her true interests by the thoughtless and impolitic indorsement of O'Donnell's wild vagaries by senseless demagogues and journals, whose words are carried to the East on the swift wings of the press and there reproduced as true reflections of Pacific Coast sentiment, when in fact they misrepresent our solid people utterly. Following is the Chronicle's article: "California's original claim to the Chinese mission has been ridiculed by the Eastern newspapers—and it must be confessed very justly—because of the senseless conduct of Agitator O'Donnell. They have made out that O'Donnell, who organized a sand-lot mob on Easter Sunday and incited them to abuse Chinese in the streets of this city, fairly represents the sentiment of the California people, and that were a Californian appointed to Peking the first thing he would probably do would be to grossly insult Li Hung Chang or some of the mandarins of the Celestial Court. It does little good to tell them that O'Donnell plays about the same part here that O'Donovan Rossa or Herr Most does in New York; that he is an arrant fraud whose vaporings are regarded with contempt by all decent people, and whose vulgar demagogism is so selfish and so transparent in its purpose that no one but a fool can be deceived by it. It does no good, we say, to repeat this, when a number of silly editors throughout the State put O'Donnell on the back and declare that he is making a brave fight against the Chinese evil and against the monopolists who uphold it. The articles written by these uninspired idiots are always copied just in the places where they do this city and this coast the most harm. Warmly approving a man who is more mischievous than Kearney ever was, because he has less common sense and less real convictions, these articles are taken as genuine indorsement by the California public of a demagogue whose conduct is condemned out of hand by all property-owners and by every citizen who has the good of the State at heart.

"It might as well be stated right here that we can never hope to gain anything in our perennial fight against Chinese immigration by violence against the coolie. We must observe a law which cannot be evaded, and then get judges who will enforce its provisions to the letter. The country has waited several years to get a law which would check the spread of polygamy. When the law was obtained it waited two years to get judges who would administer the law in the intent of Senator Edmunds, the framer of the measure, and of the Congress which passed it. Finally the judge appointed, and lo! all Mormondom was stirred to its depths, and such has been the terror caused by the just prosecution—not persecution—of the polygamists that it is only a question of a short time when plural marriages will cease in Utah, and the offense of bigamy will be regarded there as elsewhere in this country. It is just the same with Chinese immigration. We have a patched-up law which has many loop-holes for the coolie to creep through, but in time we may secure such improvements in it that the Chinese may be permanently barred out. This can only be done in a legal way. The day has gone by for agitation which takes the form of abuse of an unpopular class. This method can only react against the man or the community that uses it.

"The loss of the Chinese Mission is of trifling importance, but the report that the Pacific Coast sanctions the intolerance and violence of the wild O'Donnell is a very grave matter. It should be denied, and strongly denied, by all newspapers which care for our good name abroad, and those cranks who uphold this apostle of the communist and the incendiary should be made to see the error of their way through their only vulnerable point—the pocket. No paper should receive the support of reputable people which deals such deadly blows at the good name of the State."

O'Donnell spoke in Los Angeles last Saturday evening. Mr. Mayor Spence was present on the stand throughout the agitator's diatribe, and is reported as having, at its conclusion, stepped up to O'Donnell, thanked him for his speech, and indorsed his utterances. Whether or no the Mayor is correctly reported, remains for that official to say.

A NEW paper, the Southern Artisan, has been established at Richmond, Va., and another at New Orleans, the Southern Industry. The most hopeful sign of the South is the interest in the questions discussed in such newspapers. A people who have come to realize the prime truth that man cannot live by politics alone, but must work for bread, are on the high road to prosperity.

THE San Francisco Examiner has an able editorial (at least we assume it to be able) entitled "Stable Opinions." We have not yet been able to grab time enough to read the same, but let us ask the Examiner why it should infringe upon the hose department of Mr. Bonnet's paper in this abrupt manner, without timely notice? Hay?

The Knife.

It has been run into the Los Angeles County Democratic Committee again by the Alta California. The Alta is against Congressman Henley by a very heavy majority, and not only argues stoutly that he does not represent the California Democracy, but maintains, and produces the documents to prove its position, that Henley is an alien and not entitled to a seat in the Congress of the United States or to a vote as a citizen of California, having foresworn his allegiance to his country twenty years ago, and applied for admission to citizenship in Mexico as a subject of the short-lived Emperor Maximilian. The Alta is consequently "dead set" against Mr. Henley having so much to say about California appointments. After indulging in some generalizations intended to support this very healthy proposition, that journal says:

Not to deal entirely in generalities when specific illustrations are at hand, we will refer to the extraordinary spectacle presented by the contradictory attitude of the Los Angeles County Committee. A few weeks since that committee passed the following resolution:

Resolved, That the Democracy of Los Angeles county, California, expressing unbounded confidence in Hon. Barclay Henley, approve of the course which he has adopted, and earnestly hope that the President, in all matters concerning Federal appointments, will consider Mr. Henley as duly authorized and accredited to speak for the Democratic party of this State.

This was an expression of perfect confidence in Mr. Henley's ability to deal with the question of appointments, and a direct intimation that whatever he recommended would meet with the cordial indorsement of the Democrats of Los Angeles. It was too bad that this altruistic confidence should prove to be misplaced, but such seems to be the case. The above-quoted resolution hardly had time to wing its way to Washington before the appointment of a Los Angeles man was effected by Mr. Henley's influence. But it seems not to have been satisfactory, for the same committee that had expressed such "unbounded confidence" in Mr. Henley's ability to deal with the patronage question single-handed, met and adopted this second resolution:

Resolved, That this committee has learned with surprise and pain of the appointment of Charles Whitehead to the position of Special Pension Inspector for this State, inasmuch as the said Whitehead was, during his residence in the county of Los Angeles, one of the most conspicuous partisans of the Republican party. He was editor of the Los Angeles Daily Republican, and writer of its bitterest and foulest diatribes against the Democratic party and its nominees.

Moreover, irrespective of politics, the citizens of this county do not consider the said Whitehead a proper person to fill any position of trust or responsibility.

In other words, the Los Angeles County Committee is convinced that after all Mr. Henley is not infallible. It no longer thinks he ought to manage the whole business alone, and it would probably be reluctant now even to declare that he is "duly authorized and accredited to speak for the Democratic party of this State."

The way in which the Democratic Alta has called the turn on its esteemed Democratic cotemporaries of the Los Angeles County Democratic Committee is rather neat, and we await with breathless interest for the brethren to take the floor in reply.

Why Not?

To the Editor of the Times—SIR: Dr. Fay has announced his intention of holding, next Sunday, with the Church of the Unity, "A Service of Patriotism." Why not? Many remember when a love for our country was regarded as a religious sentiment. Indeed, in founding the country and adopting republican principles for its government, our fathers were inspired by intense religious convictions. We are informed that several of the officers of the city and county have expressed their hearty approval of the service which Dr. Fay intends to hold, and have cordially accepted special invitations to be present. The Church of the Unity have wisely engaged Childs's Opera House for the occasion. V.

Prohibition in Georgia.

[From the Atlanta Constitution.]

A circular issued by the Good Templars on the 20th of this month is a very interesting document. The excellence of the map consists in what it shows. At a glance it shows that Georgia has practically become a prohibition State. The "tight" counties largely prevail, and the "black" counties are exceptional. There is a "black" streak along the Chattahoochee river, beginning with Harris and running down to, but not including, Decatur county. Whether this belt is due to the fact that Alabama, across the river, would render prohibition to a great extent ineffective we do not know. Another "black" streak extends from the Savannah river, in Lincoln, through Wilkes, Taliaferro, Hancock and Baldwin counties. Outside of these two belts "black" counties are few and far between. High license is the favorite policy in southeast Georgia, and there are only two counties in all that section in which whisky is sold—Chatham and McIntosh. In upper Georgia, Gordon, Pickens and Towns are the only counties that have not felt the movement. Douglas and Newton are also exceptional counties. Of 138 counties only 22 are unsouched by temperance. A few have adopted prohibition in districts, but in about 100 counties prohibition is absolute.

Mrs. Carr.

[Ventura Signal, June 20.]

Among visitors to our town during the week have been Mrs. Jeanne C. Carr, of Pasadena, the wife of Prof. Carr, late State Superintendent of Education, and herself one of the most successful horticulturists and viticulturists in the State, and a most vigorous writer both on those and other subjects. Her vineyard, orchard and garden are a model for everybody, and visitors from the East who are fortunate enough to see them grow enthusiastic in their praise. She is also a successful lecturer.

PENJDEH.

The Length, Breadth and Resources of the Oasis.

[From the Moscow Gazette.]

Penjdeh is in the shape of a triangle, formed by the Murghab, which waters the Merv oasis, and by its affluent, the Kushk. To the south and southwest the frontier of Penjdeh—a district traversed by the nomad tribe of the Sarik Turcomans—is easily confounded with the hills of the once flourishing territory of Badghis. According to the investigations of European travelers, we should understand by this name the region bounded on the north by the sands of Merv, on the west by the Heri Rud, on the east by the Murghab, and on the south by the chain of the Paropamisus. The most fertile portion of Badghis at the present time is in the eastern part, between the Murghab and the Kushk. The sands of Merv extend into this region to the east of Penjdeh, while on the south they touch the well-cultivated region once belonging to the Usbegs, but now to Afghanistan, and in which are the towns Maimena, Aripul, Shibergan, Andkhoi and Akcha.

The oasis of Penjdeh, fully capable of careful cultivation on the one condition that a good system of irrigation shall be introduced, forms, as it were, a sort of turning point between the deserts of the north and the fertile regions of the south, which await colonization. History proves the flourishing state of the ancient Badghis, which is still testified to by numerous ruins. With regard to the oasis itself, Penjdeh is still peopled by about 8000 Sariks, who occupy themselves chiefly in raising flocks. Their encampments skirt the banks of the Murghab from the site marked by the ruins of old Penjdeh. The greatest breadth of the oasis from west to east is scont twenty miles; the greatest length from north-west to south-east—that is, from Ak Tapa to Merv-chak—is about twenty-seven miles. The area is rather more than 300 square miles.

The Penjdeh Sariks are rich. They live in kibitkas or felt tents. Some among them possess as many as from 1500 to 2000 sheep and between seventy and eighty camels. They raise there, but in small quantities, crops of rice, wheat, sorghum, etc. They weave carpets which rival those of Persia, and fine cloths of camel hair for khlifs and women's veils, famous throughout the whole of the East, but which are exceedingly dear. The Sariks of Penjdeh have commercial relations with Bokhara, Merv and Herat above all other places. The irrigation of this region is quite elementary. Its agricultural future depends upon the improvement of this essential. The culminating point of the oasis is Ak Tapa. Ruins are to be found there of a town and a citadel. There is a road from this place to Herat by following the left bank of the Kushk, which is crossed by the half-ruined bridge of Pul-i-Khisti or Dash Kepri. At the southeast extremity of the oasis are the ruins of Merv-chak, and a little to the north of them begins the canal which issues from the Murghab and irrigates the fields of the Sariks.

Ammonia in Baking Powders.

[Scientific American.]

Among the recent discoveries in science and chemistry, none is more important than the uses to which common ammonia can be properly put as a leavening agent, and which indicate that this familiar salt is hereafter to perform an active part in the preparation of our daily food.

The carbonate of ammonia is an exceedingly volatile substance. Place a small portion of it upon a knife and hold over a flame and it will be almost immediately developed into gas and pass off into the air. The gas thus formed is a simple composition of nitrogen and hydrogen. No residue is left from the ammonia. This gives it its superiority as a leavening power over soda and cream of tartar used alone, and has induced its use as a supplement to these articles. A small quantity of ammonia in the dough is effective in producing bread that will be lighter, sweeter, and more wholesome than that raised by any other leavening agent. When it is acted upon by the heat of baking, the leavening gas that raises the dough is liberated. In this act no acid is itself up, as it were; the ammonia is entirely diffused, leaving no trace or residuum whatever. The light, fluffy, flaky appearance, so desirable in biscuit, etc., and so sought after by professional cooks, is said to be imparted to them only by the use of this agent.

The bakers and baking powder manufacturers producing the finest goods have been quick to avail themselves of this useful discovery, and the hand-somest and best bread and cake are now largely raised by the aid of ammonia, combined, of course, with other leavening material.

Ammonia is one of the best known products of the laboratory. It, as seems to be justly claimed for it, the application of its properties to the purposes of cooking results in giving us purer and more wholesome bread, biscuit and cake, it will prove a boon to dyspeptic humanity, and will speedily force itself into general use in the field to which science has assigned it.

An Incident of Grant's Boyhood.

General Grant tells the following amusing incident of his boyhood days on the farm near St. Louis: His father and he had gone to town and somebody had offered to sell the elder Grant a pony for $25. The latter thought the price was too great, and offered $20, which the former refused. Young Grant fell very much in love with the pony, and, after the two men had failed to make a bargain, he implored his father to reconsider his determination. "Well," said the father, "run back and offer $20, and if he will not take that offer $22.50, and if he won't take that offer $25." "I did so," says the General. "I told the man my father said to offer him $20, and if he wouldn't take that to offer him $22.50, and if he wouldn't take that to offer him $25." Then he adds: "It wouldn't take a Connecticut man to guess what the man got."

FINANCE AND TRADE.

STOCKS and BONDS.

By Telegraph to The Times.

NEW YORK, June 22.—Government bonds quiet, steady and unchanged.

The week opened on Stock Exchange with a strong and active market. First prices were in nearly all cases ¼ to ½ per cent. higher than closing quotations last Saturday, and although some little fever-ishness was shown in early transactions the market became steady and then strong, and on continued small about one o'clock. It was simply a continuation of the strength and activity displayed last week without spasmodic advance, gains ranging in most cases from ¼ to ¾ per cent., with Pacific, Louisville and Nashville and Lackawanna rose ¾ to 1¼ per cent., with large transactions in the stock last mentioned. The market closed weak at or within ¼ per cent. in most cases, of the lowest prices, and ¼ to 2 per cent. lower than final quotations on Saturday.

Notice of Sale of Real Estate Under Execution.

Commercial Bank of Los Angeles, a corporation, vs. Sheriff's Sale D. McCarty, et al. No. 498.

BY VIRTUE OF AN EXECUTION ISSUED out of the Superior Court of the County of Los Angeles, State of California, in favor of the Commercial Bank of Los Angeles (a corporation), plaintiff, and Daniel McCarty and Patrick Brady, defendants, upon a judgment rendered the 1st day of June, 1885, for the sum of one thousand and fifty dollars, in gold coin of the United States, besides costs and interest, I have this day levied upon all the right, title, claim and interest of said defendants, Daniel McCarty and Patrick Brady, of, in and to the following described real estate, to-wit:

Lots 15, 16, 17 and 18, of block one (1), of the Fairview Tract. Also that portion of lots eleven (11) and four (4), of block thirty-six (36), of East Los Angeles, fronting 100½ feet on the north side of McClintock street, otherwise called Darwin avenue, with a uniform depth of one hundred (100) feet, and bounded on the west by Hammel street; said pieces or parcels of land lying and being in the city of Los Angeles, county of Los Angeles, State of California.

Public notice is hereby given, that I will, on

Saturday, the 11th day of July, A. D. 1885,

At 10 o'clock a. m., of that day, in front of the Courthouse door in the county of Los Angeles, on Spring street, sell at public auction for gold coin of the United States, all the right, title, claim and interest of said defendants, McCarty et al., of, in and to the above described property, or so much thereof as may be necessary to realize sufficient to satisfy said judgment, with interest and costs, etc., to the highest bidder.

Dated this 19th day of June, 1885.

Dedication of the New Long Beach Tabernacle.

The new Methodist Tabernacle at Long Beach was dedicated last Sunday. The sunrise meeting was well attended as was also the meeting at 9:30 a. m. At 11 a. m. Bishop Fowler delivered an eloquent sermon to an audience of over one thousand. The Bishop's subject was "Special Providence." At the close of the sermon the dedicatory services were held, being conducted by the Bishop, Rev. M. M. Howard, Rev. Mr. Farnsworth, Rev. E. S. Chase and Rev. A. M. Hough. A large number of Methodist clergymen from neighboring towns were present.

At 5 p. m. a prayer meeting was held and at 7:30 p. m. the services closed with another meeting. The services throughout were very impressive, and the beautiful new tabernacle will doubtless be crowded each sabbath during the summer season.

THE BATTLE OF THE BUGS.

The Horticultural Commission Preparing for Action.

BULLETIN NUMBER ONE.

OFFICE OF
BOARD OF HORTICULTURAL COMMISSIONERS, LOS ANGELES CO. CAL.,
LOS ANGELES, June 22, 1885.

The Horticultural Commission hereby urgently request the friends of horticulture in this county to join us in a thorough and systematic warfare for the suppression and, as far as possible, the extermination of all injurious insects infesting fruit and ornamental trees.

This commission is fully authorized to deal with all cases that may be reported, and urge every good citizen who knows of the existence of any such injurious insects to immediately report in writing to us, that we may act according to law.

Section 4 of the ordinance adopted by the Board of Supervisors, and the same as section 2 of an act to promote the horticultural interests of the State, approved March 4, 1881, says:

It shall be the duty of the County Board of Horticultural Commissioners *whenever they shall be informed by complaint in writing* of any person residing in said county that an orchard, nursery, or trees or any place in their jurisdiction is infested with scale bug, codlin moth, red spider, or other noxious insect (liable to spread contagion dangerous to the trees or fruit of the complainant) or their eggs or larvæ injurious to fruit or fruit trees, they shall cause inspection to be made of the said premises, and if found infected they shall &c., &c.

In short the Commissioners shall take such steps as are required by law for the suppression of all insect pests so reported.

All such communications reporting insect pests are not for public use; and will be kept only for the use of the Commissioners. Will the people do their duty by at once making known all infected places, as directed in above section 4?

We also wait to correspond with men (or have them call at our office) who are willing to invest a few hundred dollars in spraying outfits, to whom good wages and steady work will be most sure.

Also wanted plans for a steam-power spraying machine, which a customer stands ready to purchase.

Also wanted communications from persons who have trees, few or many, who wish them cleaned of scale.

The Commissioners invite the hearty co-operation of all citizens who have an interest in the future welfare of horticulture in this county. Address communications, Horticultural Commission, Los Angeles.

THE CABLE ROAD.

It Will be in Running Order August First.

A TIMES reporter was surprised on going over the western part of the Second street Cable Road, to see the progress that has been made in a week. Next week should see the track-laying completed, except that part between Bunker Hill avenue and Pearl street. It is now finished from Pearl street to within about 300 feet of the western terminus; and the excavation goes clear out. The frame of the engine house went up yesterday. Between Pearl street and Bunker Hill avenue work is also going on rapidly. The immense fill across the Hope street valley is practically completed, and the hill is being cut down from Bunker Hill avenue to meet the grade. There is every prospect that the road will be in working order by the first of August, opening up a large section of pleasant country to settlement. A good deal of land along the line is being sold, and a good many lots are to be built upon at once. The facility of access afforded by the road will give the city its first considerable pull westward; and a few years will doubtless see a thriving settlement along the hills and valleys in that direction. The Los Angeles Improvement Company will soon begin leveling the sharp hills and filling the valleys to increase the available building space along the line of the road. The cars and dummy of the company are already built, and in San Francisco awaiting shipment. They are said to be remarkably handsome and comfortable. It will take them eight minutes to run from end to end of the line. The company has other extensive and important plans of improvement, which will be announced later.

NEWHALL.

DEATH BY DROWNING—SERIOUS ACCIDENT. [Correspondence of the TIMES.]

NEWHALL, June 21.—Two very sad accidents occurred here yesterday. A couple of ladies, Mrs. Youngling and Mrs. Smith, drove into town in a lumber wagon. When they were ready to return Mrs. Smith got into the wagon first, and the horses at once started before Mrs. Youngling had time to get in. The lady seemed powerless to do anything—not even making an effort to get the reins, which were convenient. Finally she fell from the seat, and, fortunately, was not struck by the wheels, but she is, I learn, seriously hurt internally.

The other accident was the drowning of a young man named Arthur Overend, recently from Liverpool, England. It seems from what I can learn that he was sent out to the field to cock some hay. He put up one cock and then concluded to take a bath. He could swim but a very little and was ambitious to learn. The day before he was in the same pond with a companion, and remarked on coming out, that the next time he should make the attempt to swim across the pond. It is presumed that he made the effort, and possibly became entangled in the long grass, which abounds in the pond, got frightened and went down. The body now lies at the hotel awaiting the action of the coroner.

HARVEST.

Harvesting is progressing quietly. They are threshing some as fine wheat and oats on the Newhall ranch as one would wish to look at. The crop will be much in excess of what was anticipated six weeks ago. At that time there was some fear of rust. But the fact is there is little or no damage done by it. J. W. M.

GOOD DETECTIVE WORK.

Three Makers and "Shovers of the Queer" Arrested.

James Walker and James Watson were arrested Sunday night by Captain Benedict, in a Commercial street saloon, where they were trying to pass counterfeit silver dollars. A pal, John Dougherty, was nabbed in his room at the Strasbourg Hotel, a little later. They had seven of the coins in their possession when arrested. Yesterday morning the police dug up their tools in the river bed. A plaster of paris die, a plumbago crucible and a lot of babbitt metal comprised the outfit. Their counterfeits are poorly executed, being extremely light, without a respectable ring, and with a bad flaw on the head. The three gentlemen now behind the bars of the new city prison, have an admirable show for a long term in San Quentin.

Too Filthy for Respectable Papers.

Orange Tribune, June 20.]

Some of the papers have lately published evidence in the Perkins-Baldwin case, which would undoubtedly prove interesting and appropriate in the columns of the Police Gazette, but is about ten shades too filthy for respectable papers.

To Adorn Your Walls.

You will find it to your advantage to call at Adams' auction and commission house, where a fine collection of highly executed oil paintings and water colors, etc. have got to be sold regardless of value. No. 15 South Spring street.

Los Angeles College.

A number of prominent citizens interested in educational matters met last evening in the parlors of the Y. M. C. A. for the purpose of establishing a college for the education of girls and young women. Prof. D. W. Hanna exhibited the plans of the new College Hall to be erected on Fifth street, near the corner of Olive. He also stated that he had leased the two other buildings on the corner for a boarding hall. He outlined the plan and character of the institution, and stated that it should be a Christian school of a high order, but non-sectarian. On motion it was decided to name it Los Angeles College. The following named gentlemen were elected as a Board of Trustees: Prof. D. W. Hanna, Dr. P. Hoskins, C. C. Charlton, U. Embody, Rev. P. W. Dorsey, Rev. W. B. Stradley, Rev. A. J. Wells, Wm. D. Herriott, Prof. J. M. Guinn, L. N. Breed, Dr. A. G. Cook. It is expected that work will be begun on the new building to-day. The school will open on the first Wednesday of September. Prof. Hanna expressed himself as greatly encouraged, and said that the number of pupils already promised was sufficient to assure the success of the school. At the close of the meeting prayer was offered by Rev. A. J. Wells for the success of the undertaking.

BRIEFS.

The Santa Rosa sails north to-morrow.

The police made eleven arrests Sunday, and five yesterday.
